Reissue Applications

1. The 3.73(b) statement filed June 6, 2006 is incomplete because it is lacking reel and frame numbers in section "B" of the form. Furthermore, Applicant apparently never recorded the assignment with the USPTO because the original patent 6,349,832 has no assignment data recorded. Therefore, Applicant's must establish ownership as explained in MPEP 324. This can be done by submitting the documents to Assignment Recordation Services as explained in MPEP 302.08.

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-23 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The supplemental reissue oath/declaration does not include a clause under Section 1001 of Title 18 of the United States Code.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

"I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon or any patent to which this declaration is directed."

This Action is NON-FINAL.
